GENERAL NEWS.

By the act of March 3, 1863, the Secretary of the Treasury is authorized to issue \$400,000,000 in Trensury notes, running not longer than three years, and bearing interest at a rate not higher than 6 per cent, which he can make a legal tender for the facvalue. Under this authority fifty millions of the twoyears notes at 5 per centum interest, psyable every six McCunn's between the honest, impartial remonths, were negotiated with the associated banks of the three cities on the 8th of September last. These notes are to be a legal tender for their face. If paid out by the banks they will, to a great degree, operate as an equivalent increase of the corrency. Plates have already been prepared for the issue of one-year notes at the same rate of interest, payable at maturity, with the principal; which notes are also legal tender. But no decision has yet been arrived at as to their issue.
